

MAKE A WINDMILL FOR

INSTRUCTIONS

- Step 1:** Begin with a square of paper or cardboard.
- Step 2:** Fold your square, corner to corner, then unfold.
- Step 3:** Make a pencil mark around 1/3 of the way from the centre on each of the fold lines.
- Step 4:** Cut along the fold lines. Stop at your pencil mark.
- Step 5:** Bring every other point into the centre and stick a pin through all four points.
- Step 6:** The head of the pin forms the hub of the pinwheel.
- Step 7:** Turn your pinwheel over and make sure that the pin pokes through the exact centre.
- Step 8:** Roll the pin around in little circles to enlarge the hole a little. This guarantees your pinwheel will spin freely.
- Step 9:** Stick the pin into a thin dowel.
- Step 10:** Find some wind! Go outside, or create your own wind using your breath to make Beep's windmill spin!

WHAT YOU'LL NEED
