

Dear Parents,

Our class will be undertaking a playful new digital activity called *Sun Runners*. Co-produced by Windmill Theatre Company and Audioplay, students are asked to play the audio-based activity at home before sharing their experience with classmates at school.

Some episodes require two-players. Where possible, I encourage you to have students play with siblings, friends or yourself for the two player experiences.

Equipment Required:

- 1x smartphone or tablet (pocket-sized is best) per player. The device must be able to connect to the internet, through either data or home Wi-Fi.
- 1x pair of headphones per player.
- Various general household items (pens, chairs, blankets etc). Each episode provides details of what items are required.

How to play:

1. Grab your mobile device/s and headphones – kids will need to move around a lot whilst they are playing so pocket-size devices connected to Bluetooth headphones are best.
2. Connect your device to the internet. If you are using two devices, make sure they are both connected to the same network, either through WiFi or via hotspot.
3. Download the Audioplay app to each mobile device.
 - i. You can download the iOS version of the app [here](#).
 - ii. You can download the Android version of the app [here](#).
4. Open the Audioplay App and select the Log In button then the Education Access option.
5. Create an account and use the code `<insert code>` to access the *Sun Runners* series free.
6. Once you're signed in, select the episode to play. The app will talk your kids through the specific items they need for that episode (blankets, chairs etc).

If you have any technical questions about the experience, visit the [Audioplay FAQ's page here](#) or they can be contacted on support@audioplay.me for any complicated issues.

Please let me know if you have any concerns or further questions. I'm really excited to have our class try this innovative new play experience and can't wait to hear how it goes in your home.
